

THE COOKIE QUEEN

The versatile wire cookie machine, accepts hard and soft cookie doughs, with chocolate chunks, raisins oatmeal, macadamia and nuts.

The machine can extrude in continuous mode or intermittent mode, giving 30 strokes per minute or 9,000 cookies 10 g. per hour.

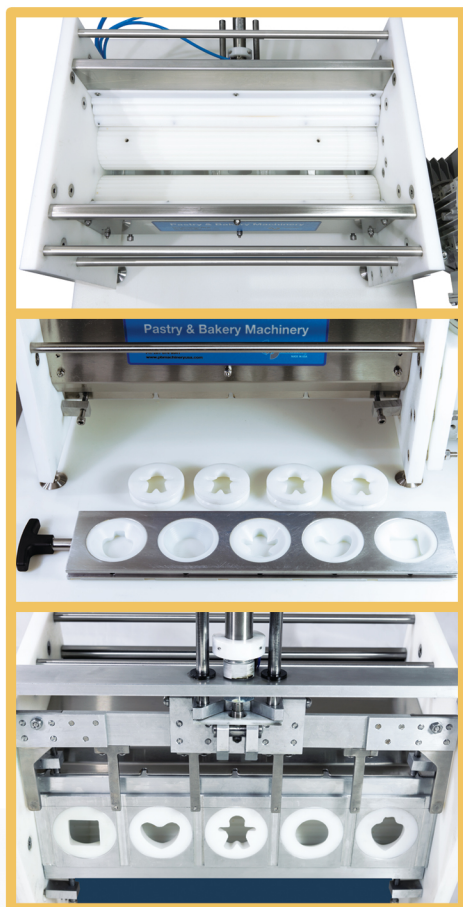

Cookie Queen 50

THE AUTOMATIC WIRE CUT BISCUIT MACHINE IS CAPABLE OF FEEDING A LINE OR CONTINUOUS CONVEYOR, USING WIRE OR SS KNIFE

-  The automatic wire cut cookie machine is full automatic, due to have a motor driver to choose the perfect speed.
-  The wire cut is industrial grade and has 4 SS supports in between biscuit.
-  The Cookie Queen machine can cut hard cookie dough with chunks of chocolate and nuts, due to have a SS 304 blade that cuts clean with accuracy.
-  The cutting device is pneumatic design and the SS knife is suitable for hard dough and thick cookies to freeze them.

-  The choice of the cookie shape can be designed on request.
-  Teflon stainless steel blade on request.
